

SAVAGE STREET Church of Christ

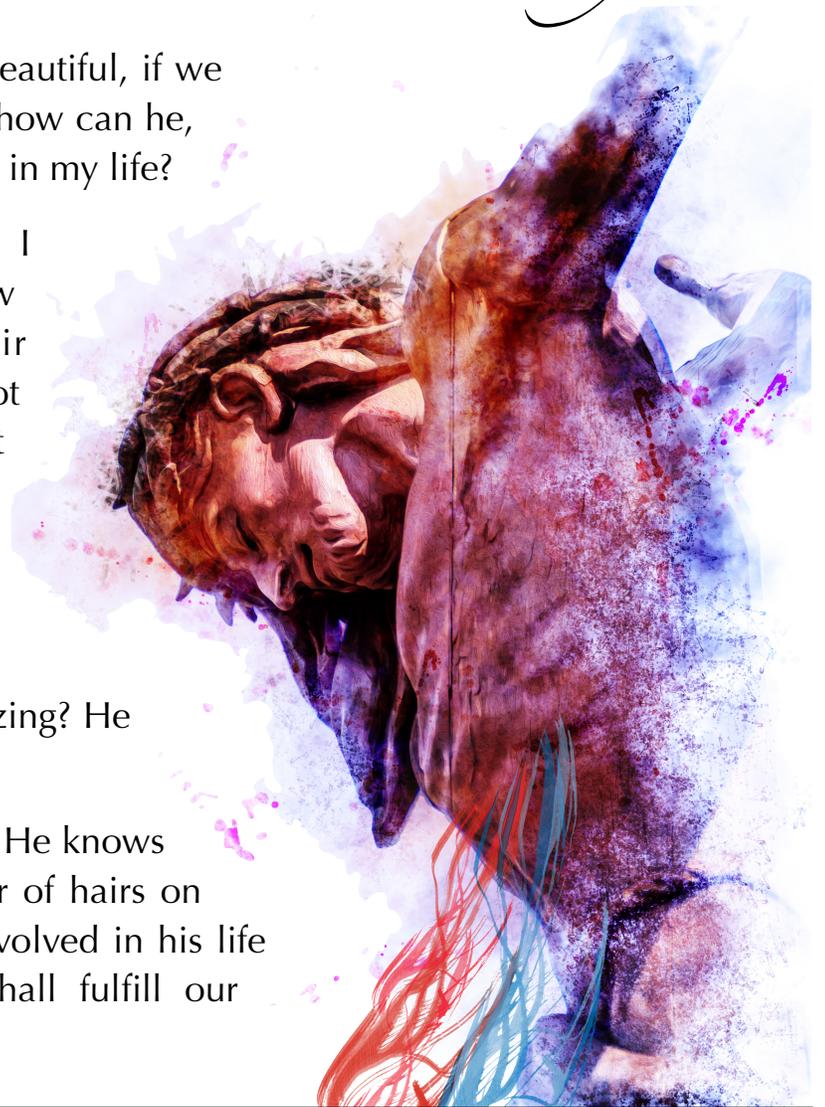

Is God Involved in My Life?

If there is a God, if he is gloriously beautiful, if we can know God, and if he knows us, how can he, from his perspective, not be involved in my life?

He has been involved even before I knew him, as Paul told some new converts of the time before their conversion, "Nevertheless He did not leave Himself without witness, in that He did good, gave us rain from heaven and fruitful seasons, filling our hearts with food and gladness" (Acts 14.17).

Do you want to know something amazing? He wants you involved in his life!

That is what the life of Jesus shows us. He knows us so well, that he knows the number of hairs on our heads, but he also wants us so involved in his life that it consumes us, for then we shall fulfill our purpose. DR

Bees

Bumblebees, honeybees, stingless bees—yes, please! Jesus designed bees with tiny brains, but they are very smart. Jesus made bees and plants to work together. Get the buzz on brainy bees below! Did you know...

- ✓ Bees help flowers. As bees eat the flowers' pollen, they spread it around so more flowers can grow.
- ✓ Flowers help bees. When bees can't find pollen, they nibble on the leaves of a flowering plant. The plant responds by blooming early!
- ✓ Bees dance! Their movements tell other bees where to find food.
- ✓ Bees support life. They transform flower nectar into honey that people and animals can eat.
- ✓ Bees do math. They can also learn new skills and teach them to other bees.
- ✓ Bees sometimes sting—but that wasn't always the case. The Bible tells us that everything in creation was "very good" before Adam and Eve sinned. You can read about it in Genesis 1!

There will be a Deacon's meeting today.

Potluck Today

Our monthly potluck is today and the theme is Italian food. It will be hosted by Diane Amberg. Thank you, Diane!!

SOCC Christian Camp

There is information on a Church camp that is hosted by the West Main Church of Christ in Medford. The flier is located on the foyer bulletin board.

VBS

We are still in need of someone to direct VBS this year. If you can do this please see the Elders.

The Ark

In 2018, a large portion of money was donated for the Savage Street youth to visit the Ark Encounter and Creation Museum trip. However, since then, we have a larger group of kids participating and the costs have gone up significantly. There is now an opportunity and need for more donations to fund the trip. Please consider donating to this cause if you feel that it's important for our youth to learn more about the creation of the world, the science behind creation, and how to dispel the myth that Noah could not have built and managed the ark as indicated in the Bible. Please mark your donations with "Ark" and put them in the regular contribution tray. We firmly believe that our youth are the future of the Church and any support is greatly appreciated.

Ruhl's Rules

Ants

Solomon gave us this insight, that sometimes dirt is a good sign: "Where no oxen are, the trough is clean; but much increase comes by the strength of an ox" (Proverbs 14.4). Now, think of our building. For the past two years, I have not seen any ants, but they have come back. Why? We stopped eating in the building during the pandemic, but we have been again and so the ants have returned. We need to clean up after we eat, especially the counters, but it means that we are using our building as it was intended. So that is a good sign, and if we continue, we shall have increase, meaning more people, and that is a good thing.

Still Recovering from COVID-19

Speaking of the pandemic, it has been a year since I first got COVID, and in May it will be a year since I was hospitalized, but I am still dealing with the aftereffects, and it is frustrating. The loss of physical strength keeps me from doing many things that I was

capable of doing just a year ago. I am also short of breath, but the biggest issue is tiredness. I am sleeping well, but I still need naps, sometimes even before I get to my office in the morning, and then later in the day, I need another one. Is this permanent or am I just one of those people who has to deal with long term recovery; either way, is it because of my immunosuppression? My doctors do not have answers because even after two years, COVID-19 is still a new disease, and they are still learning about it.

Visiting

That leads me to another thing. Because of my sleeping issues, I have not picked up my normal visitation, and that is frustrating to me also. I am behind on a lot of things, both at work and at home, but I am giving my best effort to improve. Thank you for your prayers.

Enough of My Whining
